
Tableau Projects Assignment 5

Problem Statement:

Personal Medical Expenses are one of the expenses which will always be there in your monthly expenses because of your health condition, your physique and many other factors.

So here is a dataset from Kaggle which shows the medical expenses for a person with specific characteristics like he is a smoker, what is his BMI and many more.

Find key metrics and factors and show the meaningful relationships between attributes. Do your own research and come up with your findings.

Dataset:

You can find the dataset on the given link

<https://www.kaggle.com/mirichoi0218/insurance>

Approaches:

Python, R, Tableau, Power BI, or you can use any tools and techniques at your convenience. We would appreciate your valid imagination in finding solutions.
